For more detail, please view my online resume: <http://resume.alanstevens.io>

Profile

My mission is to empower people. I do this through the software I build, public speaking, and Open Space Technology facilitation. I solve problems.

I am a software developer with nearly two decades experience delivering working software that meets users' needs in a variety of languages and platforms. Today, I focus on web development in ASP.NET with experience in Ruby on Rails.

I live in Knoxville, Tennessee. I have worked remotely for ten years. It is important for me to be part of a culture that supports remote work. I am self motivated. I get things done.
